Registering Animals - Manually Entering Data Process

For Weaning Weight data entry only

Select gender of calf at weaning. Should be same as sex at birth unless bull calf was steered.
Registering Animals - Manually Entering Data Process

For Weaning Weight data entry only

Hip Height is optional but by entering this information, you will receive a frame score for this animal. Hip Heights must be taken by an approved technician.
Registering Animals - Manually Entering Data Process

For Weaning Weight data entry only

Disposal Codes are to be used only when a calf has died, been culled or sold. Scroll through the options listed for a complete list of disposal codes.
Registering Animals – Upload a CSV Spreadsheet

Prepare a CSV (comma separated value) spreadsheet with your data ahead of time.

Contact SCBA office for an Excel spreadsheet to use when registering cattle with this method.

It is highly recommended you use the manual method first before attempting to upload your data.
Registering Animals – Upload a CSV Spreadsheet

Example of a CSV file ready for uploading into database for registering calves. The same requirements used for manually registering calves applies for CSV as well.

| A | B | C | D | E | F | G | H | I | J | K | L | M | N | O | P | Q | R | S | T | U | V | W | X | Y | Z | AA | AB |
| 1 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 | 2 |

This file should be saved on your computer where you know where to find it easily.
Registering Animals - Upload a CSV Spreadsheet

Upload the already prepared CSV file by using the browse feature.
Overview Cattle Registry System

To enter weaning weights on animals - click here
To enter weaning weights

This is the same process as when registering animals. The same criteria exist with the exception that now you will need to enter the registration number of the animal first before entering the data.
To enter yearling weights on animals - click here
To enter yearling weights on animals

- Just as with Weaning, you must enter the Registration number first to enter Yearling data.

To enter yearling weights on animals

- Just as with Weaning, you must enter the Registration number first to enter Yearling data.
To enter yearling weights on animals

- Enter yearling weight date in month, day, year format. Please note year must be 4 digit number (example 2007).
To enter yearling weights on animals

- Enter yearling weight at weaning in Lbs. (not Kg)

1 Lbs = 2.2 Kg
To enter yearling weights on animals

- Choose the feed code which best describes how the animal was fed after weaning. If the animal was on pasture only choose #1, No Creep.

If the animal is an Embryo Transfer, be sure to select #7, Embryo Transfer.
To enter yearling weights on animals

- This field is optional. Enter a yearling group if you choose to separate your contemporary groups further.
